Re: Third Request for Payment of 1998 Permit Fees, Anderson Supply, Anderson Supply Mine,
S/049/018, Utah County, Utah

Dear Mr. Anderson:

On May 11, 1999 the Division performed the requested site inspection of your Anderson Supply Mine to determine if we could close out the file. Your clay lease # ML 44272 was canceled; however, in April, the School and Institutional Trust Lands Administration (SITLA) requested the reclamation be conducted of the area still disturbed. SITLA retained a \$3,500 bond until this work was completed and ready for release. The inspection showed that no additional reclamation was needed on the state lease portion of the area. However, the disturbance on private land located adjacent to the SITLA lands must be reclaimed or maintained as an active mine site, as was discussed with you during the inspection.

Since the Division cannot close out your permit for this project until all reclamation has been completed and has met the mined land reclamation standards for release, you will be required to pay the \$100.00 permit fee as long as the file is open. Another billing statement for the 1998 fees is enclosed. **This fee must be received by this office within the next 10 days** in order to avoid possible penalties, past due interest, etc. if this is turned over to state collections. The 1999 fee will be due by the end of July. Another billing statement will be sent later this month for that payment.

Thank you for your immediate attention to this request. Please contact me at (801) 538-5310 or my supervisor D. Wayne Hedberg at 538-5286 if you have any questions or concerns regarding this letter.

Sincerely,

Lynn Kunzler
Senior Reclamation Specialist
